

## INDIVIDUAL SUPPORTER PROGRAM

The California Council of Land Trusts' mission is to build a statewide land trust community that is equal to the challenge and privilege of conserving our extraordinary land and water resources for all Californians.

Through leadership, funding, policy, communications and education, we advance the conservation efforts of more than 150 land trusts working in local communities throughout California. Together, land trusts share a common vision for protecting the best of California -- natural areas, farmlands, parks, and clean water and air.

Supporters of land and water conservation are welcome to join CCLT as an individual supporter. Support of CCLT may be of particular interest to conservation professionals and core supporters, such as the CCLT Board, the board and staff of land trusts, and the staff of public agencies with conservation mandates.

The Individual Supporter Program is an annual giving program that offers five level of participation distinguished by newsletter and webinar subscriptions, networking and educational opportunities and event discounts.

### **Individual Supporter Levels**

---
